TRANSFORM! The leadership model in times of change

A newly developed St Gallen leadership model underlies the TRANSFORM! Leadership Program and integrates modern insights into leadership and teamwork in one, holistic system. The model ensures that all relevant dimensions are precisely identified and effectively interlinked: business strategy and personal life concepts, existing structures and digital transformation processes, speed and durability, rational objectives and emotional motives, operational clout and sustainable meaning.

Value-oriented

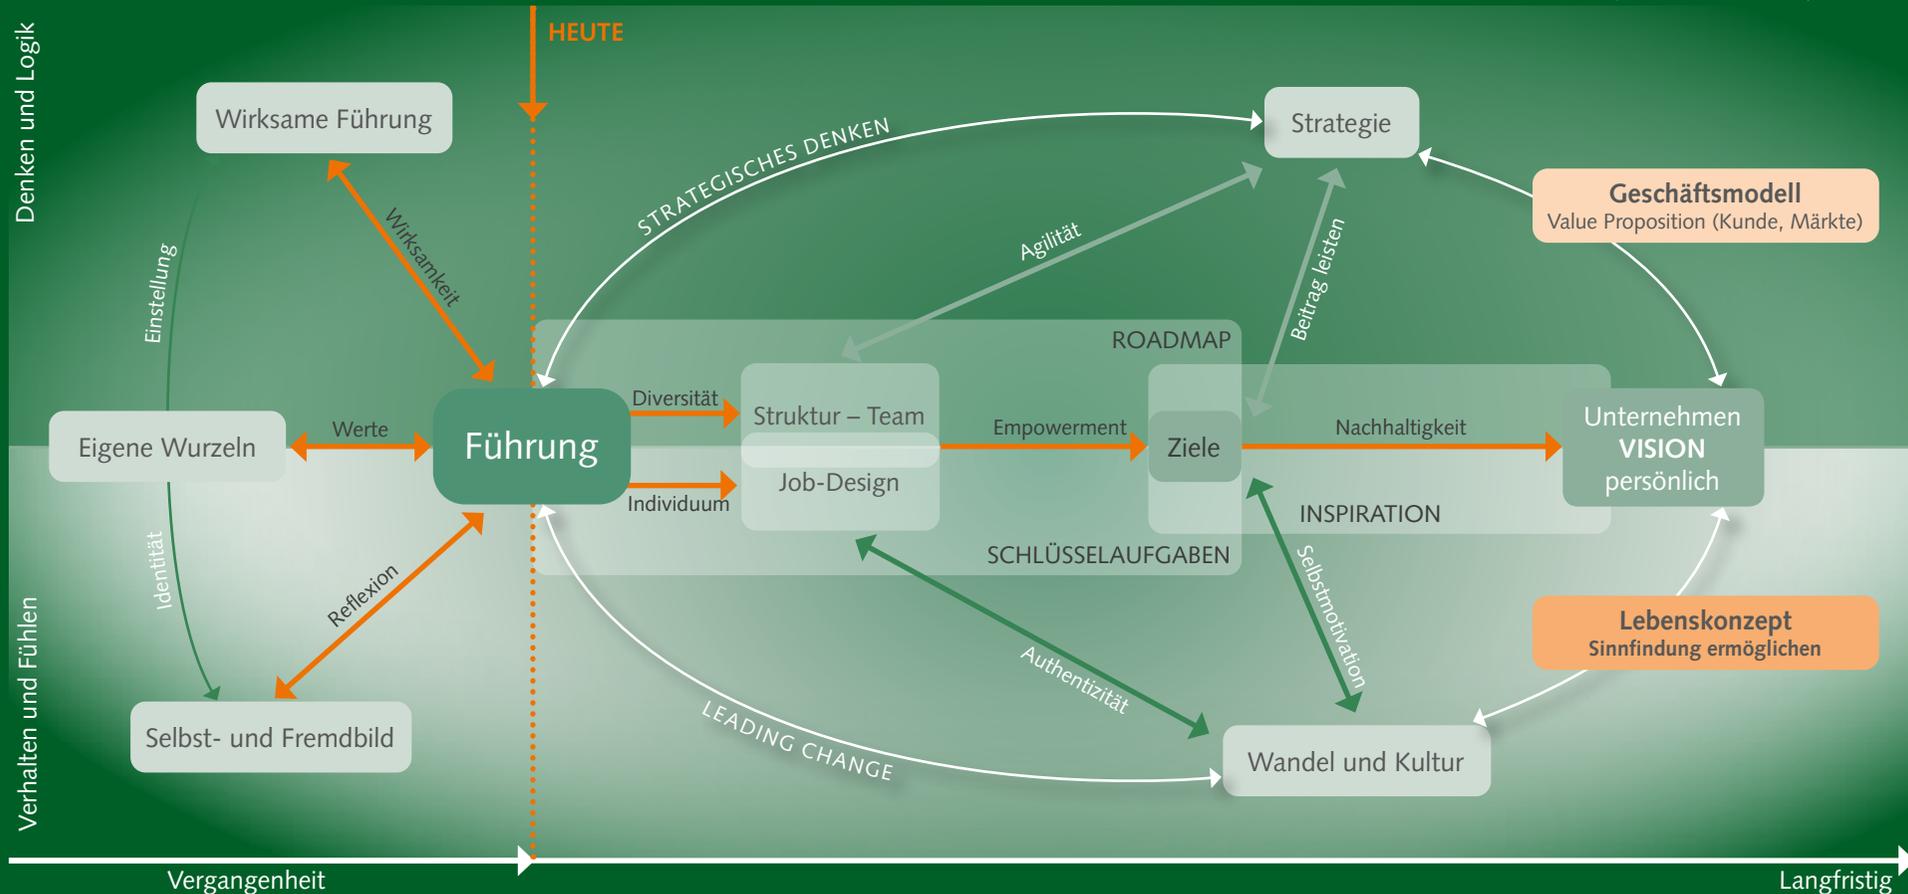

In order to lead into the future, we need to know where we have come from. The TRANSFORM! leadership model uses people's values and roots to drive leadership.

Inspiring

Without a shared vision and genuine trust, leadership cannot be truly successful. The TRANSFORM! leadership model balances strategy with meaning.

Sustainable

The way we conduct business must not mask the social and ecological context. The TRANSFORM! leadership model makes sustainability an obligation.
