Personal Excellence

Personal Excellence actively encourages you to change your personal perspective on others and on yourself. This gives you the opportunity to self-reflect more deeply in order to get to know yourself better and to be able to communicate and to use your strengths and talents in a more targeted way.

Self-image and projected image in harmony: how managers can critically assess, systematically influence and selectively employ their impact on staff and customers. The program is to a large extent shaped by the different forms of interaction. Personal charisma has a different impact on different groups of people. As a consequence, individuals can only express themselves through their image, culture, mimicry and intonation in a number of different groups and assuming a multitude of roles, postures and gestures. A manager does not simply have to accept how others perceive him or her – he or she can actively influence and steer these perceptions. Managers should reconcile the expectations that the people they encounter place in them and their role with their own personal qualities. The personal excellence program helps them to analyze and revise well-worn behavior patterns and turns them into charismatic leaders, even in exceptional situations.
